“ *My brother John was like a porcupine. Under the needles of protection was a gentle shy person who was never comfortable being the center of attention. Communication was hard for John- having all those sisters probably didn't help. He was close to his brother Curtis who helped him navigate things in life. Every once in awhile, onery John came out and so did his ability to talk or tease! John, I know that the love and joy you did not feel in life is with you now. I WISH you had known your worth.*

“ *John was a hardworking and honest guy with a great sense of humor and a beautiful smile.*
He liked his peace and solitude which can be hard to find when surrounded by a big family.
He was a proud member of the Operating Engineers Union.
He leaves behind a big loving family and extended family and good friends that miss him greatly. Rest in Peace John 🙏

“ My brother John was a kind, shy bighearted man. He recently moved to Riverside after his recent retirement to enjoy all his outdoor pursuits. He had recently become a Christian and was making new friends here that he enjoyed spending time with. We had been making plans to go on hikes this Summer and go backroads exploring.

I was really looking forward to spending a lot more time with him as we had geographically been too far apart over the years to do lot of this.

I really miss his smile and his quiet way. He was shy and introverted, and he cared about things deeply, and he adopted a family of kitties that made their home under his house. He cared for them and if he was going out of town , he always made sure I would come over and feed them.

He was that type of person. A gentle spirit. I will miss him everyday . Johnny boy you will be so missed.

I feel the loss of you now , but not forever. I know I will see you again

not in this life , but in Heaven where I know you are now, happy and at rest.

Lovingly your sis,
Beth Ann

“ My bother was a kind and generous person, and I will miss him very much. Although a shy and introverted person, once you got him talking about a subject he liked, he would come out of his shell. He moved to Riverside last year after retiring to pursue his love of hunting, fishing, and hiking. In the process he found a new friend in Jesus. Although his life was cut way too short, I wish he had known how very much his family and friends loved him, and were looking forward to spending a lot more time with him. He had such a great smile when he did let you see it. He had a family of kitties that moved under his house and lovingly took care of them (his babies) and was making new friends at the church that he attended. I’m gonna miss all the times we could have shared and we both had planned together, like the hikes and backroad drives. But Johnny, I am so thankful God saw fit to make you my brother, and I have all those wonderful memories that I will keep close in my heart forever.

For now, I grieve of things that could have been, but look forward to things that in heaven will be.

Lovingly your sis,

Beth Ann
